

2312 CLASS SIZE

The Board of Education directs that the number of pupils assigned to any one class be governed by considerations of instructional quality and economy of operation.

A desired range for the minimum and maximum number of pupils that shall be assigned to regular classes shall be established by the Superintendent.

The Superintendent shall prepare guidelines for class size. Maximum limits shall take into account the subject matter, type of instruction, ability of pupils, availability of aides, and use of special facilities and equipment and may be waived to accommodate the demands of a temporary increase in enrollment.

Class Size Guidelines

The district does not have a formal policy nor negotiated contract language that makes specific reference to class size. The district does have an operational guideline. The class size for primary grades Kindergarten through two shall generally not exceed twenty-two and in the intermediate grades three through five the class size shall generally not exceed twenty-four.

Adopted: 25 April 2016
