

R 5320 IMMUNIZATION

A. Immunizations on Admission

1. No Principal shall knowingly admit or retain any student who has not submitted acceptable evidence of immunization according to the schedule set forth in section E, unless the student is provisionally admitted as provided in paragraph A.2. or exempted as provided in section B., N.J.A.C. 8:57-4.3, and 8:57-4.4.
2. A student shall be admitted to preschool or school on a provisional basis if a physician, an advanced practice nurse, (a certified registered nurse practitioner or clinical nurse specialist) or health department can document that at least one dose of each required age-appropriate vaccine(s) or antigen(s) has been administered and that the student is in the process of receiving the remaining immunizations.
 - a. A child under five years of age lacking all required vaccines shall have no more than seventeen months to meet all immunization requirements in accordance with N.J.A.C. 8:57-4.5(b).
 - b. A child five years of age or older lacking all required vaccines shall have no more than one year to complete all immunization requirements in accordance with N.J.A.C. 8:57-4.5(c).
 - c. Provisional status shall only be granted one time to students entering or transferring into schools in New Jersey. If a student on provisional status transfers, information on their status will be sent by the original school to the new school. Provisional status may be extended by a physician for medical reasons as indicated in N.J.A.C. 8:57-4.3.
 - d. Students transferring into this district from another State or country shall be allowed a thirty day grace period in order to obtain past immunization documentation before provisional status shall begin. The thirty day grace period does not apply to students transferring from within the State of New Jersey.
 - e. The Principal or designee shall ensure the provisionally admitted student is receiving required immunizations on schedule. If the student has not completed the immunizations at the end of the provisional period, the Principal shall exclude the student from school until appropriate documentation of completion has been presented.

- f. Students on provisional status may be temporarily excluded from school during a vaccine-preventable disease outbreak or threatened outbreak, as determined by the State Commissioner of Health and Senior Services or his/her designee.

B. Exemptions from Immunization

1. A student shall not be required to have any specific immunization(s) that are medically contraindicated.
 - a. A written statement from any physician licensed to practice medicine or osteopathy or an advanced practice nurse (certified registered nurse practitioner or clinical nurse specialist) in any jurisdiction in the United States indicating that an immunization is medically contraindicated for a specific period of time and the reasons for the medical contraindication, based on valid reasons as enumerated by the Advisory Committee on Immunization Practices (ACIP) standards or the American Academy of Pediatrics (AAP) guidelines, will exempt a student from the specific immunization requirements by law for the period of time specified in the physician's statement.
 - b. The physician's or an advanced practice nurse's (certified registered nurse practitioner or clinical nurse specialist) statement shall be retained by the school as part of the immunization record of the student and shall be reviewed annually.
 - c. When the student's medical condition permits immunization, this exemption shall thereupon terminate, and the student shall be required to obtain the immunizations from which he/she has been exempted.
2. A student shall be exempted from mandatory immunization if the parent(s) or legal guardian(s) submits a signed statement that explains how the administration of immunizing agents conflicts with the student's exercise of bona fide religious tenets or practices. General philosophical or moral objection to immunization shall not be sufficient for an exemption on religious grounds.
 - a. The written statement signed by the parent(s) or legal guardian(s) will be kept by the school as part of the student's immunization record.

- b. Students enrolled in school before September 1, 1991 and who have previously been granted a religious exemption to immunization, shall not be required to reapply for a new religious exemption under N.J.A.C. 8:57-4.4(a).
 3. Students exempted on medical or religious grounds may be temporarily excluded from school during a vaccine-preventable disease outbreak or threatened outbreak, as determined by the State Commissioner of Health and Senior Services or designee.
- C. Documentation of Immunization
1. Any of the following documents shall be accepted as evidence of a student's immunization history, provided that the document lists the type of immunization and the specific date (month, day and year) when each immunization was administered.
 - a. An official school record from any school or preschool indicating compliance with immunization requirements,
 - b. A record from any public health department indicating compliance with immunization requirements,
 - c. A certificate signed by a physician licensed to practice medicine or osteopathy or an advanced practice nurse (certified registered nurse practitioner, or clinical nurse specialist) in any jurisdiction in the United States indicating compliance with immunization requirements, or
 - d. The official record of immunization from the New Jersey Immunization Information System indicating compliance with immunization requirements.
 2. All immunization records submitted by a parent(s) or legal guardian(s) in a language other than English shall be accompanied by a translation sufficient to determine compliance with the immunization requirements of this regulation.
 3. Parental verbal history or recollection or previous immunization is unacceptable documentation or evidence of immunization.

D. Immunization Records

1. Each school shall maintain an official State of New Jersey Immunization Record for every student which shall include the date of each individual immunization.
 - a. When a child withdraws, is promoted, or transfers to another school, preschool or child care center, the immunization record, or a certified copy thereof, along with statements pertaining to religious or medical exemptions and laboratory evidence of immunity, shall be sent to the new school by the original school or shall be given to the parent(s) or legal guardian(s) upon request, within twenty-four hours of such a request.
 - b. The immunization record shall be kept separate and apart from the student's other medical records for the purpose of immunization record audit.
 - c. Child care centers, preschools, and elementary schools are to retain immunization records, or a copy thereof, for at least one year after the student has left the school. For children who are promoted from elementary to middle school or from middle school to high school within the same school system, this record retention requirement is not applicable in accordance with Department of Education rules and policies on transfer of student records.
 - d. Each student's immunization record, or a copy thereof, shall be retained by a secondary school for a minimum of four years after the student graduates from the secondary school.
 - e. When a student graduates from secondary school, the record, or a certified copy thereof, shall be sent to an institution of higher education or may be given to the parent(s) or legal guardian(s) upon request.
 - f. Any computer-generated document or list developed to record immunization information shall be considered a supplement to, not a replacement of, the official New Jersey Immunization Record.

2. A report of the immunization status of the students in each school shall be sent each year to the State Department of Health and Senior Services by the Principal or other person in charge of a school. The form for the report will be provided by the State Department of Health and Senior Services. The report shall be submitted by January 1 of the respective academic year. A copy of this report shall be sent to the local Board of Health in whose jurisdiction the school is located. Failure by the school district to submit such report by January 1 may result in a referral to the New Jersey Department of Education and the local health department.
3. The Principal or other person in charge of a school shall make immunization records available for inspection by authorized representatives of the State Department of Health and Senior Services or the local Board of Health in whose jurisdiction the school is located, within twenty-four hours of notification.

E. Immunization Requirements

1. The immunization requirements for school age children shall be in accordance with the requirements of N.J.A.C. 8:57-4 – Immunization of Pupils in School as outlined below:
